

LONDON VIEW OF VISIT OF FLEET

United States Determined to Show Control of the Pacific.

London, Aug. 22.—The Daily Telegraph in an editorial this morning, speaking on the vast changes in the politics of the Pacific portended by the magnificent reception Australia has accorded, not to a British but to an American fleet, says:

"It means and is welcomed by the Australians as meaning that the United States is determined to secure their position in the Pacific, and the demonstration they are giving of the means they intend to employ to keep their position is extraordinarily complete. What the people at home have scarcely realized is that Europe has practically vacated the Pacific. Not a single battleship belonging to any European power is to be found in any corner of that great ocean, while America has three squadrons there. The mastery of the Pacific was Britain's only twenty years ago. The rise of Japan on the one hand and the naval renascence of the United States on the other has profoundly changed conditions and revolutionized Australia's attitude toward problems for national defense."

"The Daily Telegraph finds Australia's ambition to have its own navy but a natural one, but it thinks the American demonstration will show her how many millions the realization of such a dream will require, and convince her that her naval interests can be secured by contributions to the British navy."

In conclusion, the Daily Telegraph thinks that the principle of a white Australia washed by a white Pacific, held passionately by the Australians, conceals serious dangers, but it does not doubt the question of Asiatic immigration can be settled on perfectly honorable terms.

TAFT SAFELY DELIVERED OF HIS ADDRESS

Continued From Page 1.

and granting of rebates and discriminations by railroads to large shippers. When the extent of these evils was brought home to the people, he said, President Roosevelt took the attention of congress and the public to them, and proceeded to enforce the laws then on the statute books.

"It was not," he said, "until Mr. Roosevelt, realizing to the full the danger to which our society was exposed under the offending corporations, railway and industrial, were made to obey and fear the law, took vigorous action in the recommendation of new legislation, and in the enforcement of the old, that anything very effective was done to check the growing evil."

Work of Congress.

The Republican congress, which had been elected with Roosevelt in 1904, Mr. Taft said, made a record for remedial legislation along the lines recommended by the president, which, as he has said, himself, has never been equalled in our time. Mr. Taft referred to the railway rate law, the law creating the bureau of corporations, the pure food bill and the meat inspection law, most of which he declared encountered the open, bitter opposition of the corporations and failed of passage in the previous congress.

"What has been the result of this legislation and legislative action?" he asked. "Secret rebates and unlawful discriminations have been actually abolished. No monopoly of business in any line is now maintained by a secret reduction of freight rates to which is denied to competitors."

He declared that "the people have ruled through the Republican party; I have no hesitation in saying that not since the beginning of the government has any other national administration done so much for the cause of labor by the enactment of remedial legislation as Theodore Roosevelt and the Republican congresses elected and sitting during his terms of office."

Needed Legislation.

It is true, he said, that additional machinery is needed to enforce the principles laid down by Mr. Roosevelt and declared in the remedial statutes already passed. "The present congress," he added, "has re-enacted the employer's liability act, has strengthened the safety appliance acts, has passed the government employees' compensation act, has directed investigations into mine disasters and has passed a model child labor bill. It has not amended the interstate commerce law so as to prevent over issue of stocks and bonds or interstate railroads and it has not amended the antitrust law as suggested by Mr. Roosevelt."

Outside the Platform.

"They seem to have an impression that an evil which is very insidious and which is elusive in its character when definite legal description is to be given of it and heavy penalty is to be prescribed for it, may be safely met by a statutory denunciation hastily prepared in a day or a week or a short period. We have seen within the short four years of the present administration such measures as election of federal judges and national initiative and referendum proposed as remedies for our existing evils and now withdrawn under assurances that they will not be again suggested."

He declared that the Republican party was not responsible for the abuses he had described and that "the evils were due to the fallibility of human nature and the willingness of ambitious and unscrupulous men to turn an instrumentality necessary in human progress to a vicious purpose. Of all possible agencies for reform, he said, the Democratic party, under its present leadership, is the one least entitled to any credit."

Cannon Upheld.

Speaking of the house of representatives as having been charged with having a procedure allowing the speaker to suppress the popular will, he said that while he would not discuss the wisdom of that procedure, it was sufficient to say that the senate has no rule for the previous question and in that

SENATOR SMOOT ON HIS WAY HOME

Monetary and Waterways Commissions Are Through With Europe.

London, Aug. 21.—The members of the sub-committee of the American monetary commission have held their last session in this city and tomorrow they are to separate, the majority returning to America. The commissioners have gathered a mass of information regarding the British monetary system. They have discussed many financial questions and have had the advantage of the experience of the great English bankers, including Lord Rothschild, Lord Revelstoke and the governors of the Bank of England, with whom the commissioners have had long conferences.

Senator Hale of Maine will sail for home on the Mauretania, and Congressman T. E. Burton of Ohio will leave on the St. Paul. Both steamers will depart tomorrow. Senator Daniel of Virginia and Congressman Vreeland of New York will go to Paris to look into the French financial system, while Senator Aldrich of Rhode Island will spend a holiday on the continent. Some of the commissioners may visit Berlin, but no official meetings will be held there.

The members of the waterways and forestry preservation commission also are separating, after having investigated the means adopted by the various states of Europe for the preservation of timber and the improvement of canals.

J. Hampton Moore and Senator Smoot, members of this commission, will sail for home tomorrow. Mr. Moore, who first made himself acquainted with waterways of America, has made a thorough investigation and study by personal observation of the waterways of the continent and England. He also has looked into the question of forestry and preservation in Great Britain and elsewhere.

Two Want Protection.

Guthrie, Okla., Aug. 21.—The City National bank of Council and the First National bank of the same place, two of the leading institutions of Washita county, have surrendered their charter as national banks for the purpose of liquidation, and will take out state charters in protection of deposits.

Ladies free Mon., Aug. 24, Saltair.

Victory for Sanpete Co.

State Engineer Tanner sustains the lines run by that county on disputed land.

Manti, Aug. 21.—State Engineer Caleb Tanner was in the city yesterday upon his return from the disputed territory north of Panguitch, where he was contested by Sanpete and Juab counties, which was settled by him. The boundary of the county, while Commissioner Tanner was in the territory, was the line of the Herd of the beginning of the present week between the counties mentioned, was settled by the state engineer, and the line of the county was maintained by Sanpete at this particular point were sustained by Mr. Tanner.

Commissioners George McNamee and Hans J. Hassell, Surveyor Harry Carter and Attorney W. C. A. Bryan appeared before the county court, at which time Sidney Sanderson, Surveyor E. W. Fox, Assessor Herbert E. Smyth and James L. Nielsen represented Juab county.

The contention of Juab was that the disputed line should run from what is known as Bald mountain, thence south to Water hollow, thence across to Divide to the peak between Log and North canyons, thence to the top of the west mountains.

Sanpete's contention was that from Bald mountain the line should run down the ridge north of Water hollow to a point where the wagon road rises suddenly out of Salt Creek canyon on the divide, thence west to the ridge between the Meeting House and Bradley canyons, thence up the ridge to the summit of the west mountains.

There are other disputed claims between the two counties in the vicinity of Fayette, some twenty miles south of Manti, etc., some were settled at this time, but will come up later.

Manti is boasting of furnishing more men in the National Guard matches at Camp Perry, Ohio, than any other organization in the state. Out of the twelve men selected from all the companies in the state of the First regiment, including regimental staff, company E, Manti, furnished four men. They are Lieutenant Harry Winick, Sergeant David H. Nelson, A. L. Buchanan and Private Joseph Henrie. Major Fred Kammermann, also a Manti man, is among the number who is taking part in this contest. Manti feels proud of her little company of soldiers, and feels certain that they will make a record for their county in the contest.

John Zabriskie was brought to Manti the other day by Sheriff Knudsen from his home, where he was charged with adultery. Zabriskie is now confined in the county jail, awaiting trial.

OKLAHOMA BANKS AFTER BENEFITS

Much to Disgust of Administration at Washington.

Washington, Aug. 21.—T. P. Kane, deputy comptroller of the currency, stated today that the published statement that a large number of national banks in Oklahoma had notified the comptroller of the currency of their intentions to surrender their national charters and enter the state banking system, because of the opinion rendered by the attorney general that they cannot lawfully avail themselves of the state guaranty laws, was not in accord with the facts.

"There are about 250 national banks in the state of Oklahoma," said Mr. Kane. "On Aug. 3 last there were fifty-eight banks which entered into the guaranty agreement were notified that they must withdraw. Twenty-seven have informed the comptroller that they have notified the state banking board of their desire to withdraw from the guaranty agreement, and seven have indicated their intention to surrender their national charters and reorganize as state banks, and two only have thus far actually gone into voluntary liquidation for that purpose."

"Replies have been received from 134 of the 253 banks that have not entered into the agreement. A majority of them state that they had no intention of so doing, as they were not in sympathy with the movement. One national bank chartered stated that its purpose in converting from a state bank to the national was to escape the requirement of the guaranty law."

Two Want Protection.

body the ability of the minority to defeat or delay legislation favored by the majority has been made the subject of criticism on the ground that it defeated the will of the people. A Republican congress, he said, could be depended upon to carry out the principles involved in this campaign.

Mr. Taft made an appointment to meet in Cincinnati on September 22 a delegation of negroes from the national Baptist convention to be held in Lexington, Ky., from September 15 to 21. It is said every state and territory will be represented in the delegation.

MACHINE TURNED TURTLE

Chauffeur Killed and Two Women Injured in Automobile Accident at Los Angeles.

Los Angeles, Cal., Aug. 21.—One man was killed, and two women and two men injured early today at Wesley and West Jefferson streets, when a wheel on a sixty horse-power automobile gave way and the machine turned turtle, plunging the occupants under the tonneau. An explosion followed, which set fire to the machine. It was with the greatest difficulty that the living occupants were saved from death in the flames that consumed the machine.

The Dead.

Joseph Bobbs, chauffeur, aged 28 years.

The Injured.

Mrs. Gladys Price.

Mrs. Francis Wilson.

The injured will recover.

TROUBLE AHEAD FOR THE RIOTERS

Continued From Page 1.

"I suppose that I am foolish to come here, said Mr. But I should go crazy if I tried to sleep at home. I am not even sure that neighbors suspect me of having negro blood in my veins. We have not mingled with the negroes here before and have kept aloof from the whites. But my husband is away and I could not think of leaving him alone here. He is invaded by rowdies, who might kill our boy. So I have thrown off the mask and come here. We are going to move away from this place just as soon as possible. In fact, my husband is looking for a position in another city now."

LEG BROKEN BY FALL.

Dr. Frank Burton of Milford Meets With Serious Accident.

(Special to The Herald.)

Milford, Aug. 21.—Dr. Frank Burton while driving prospecting on his claims east of Milford broke his leg below the knee in two places at about 11 o'clock this morning and did not get help until 8:30 p. m. He was alone at the time and several miles in the hills from road or houses and about a mile from where he had left his team. He had been up to one of the mines after specimens and was returning with his arms full when he stepped on a rock that rolled, causing him to fall in such a way as to break his left leg in two places. Knowing how badly he was injured and the distance to his team he sat down to wait for some one to pass. After waiting some time he saw a man, but was so far off he could not attract his attention. The doctor then started to crawl on his back to his team, holding the fractured limb up in the air. When he reached his team he tied the leg up with a lap robe, hitched up and drove to the nearest house for help and was brought home. Dr. Hunter set the leg.

WEATHER REAL PLEASANT.

Severe Heat Seems to Have Left Salt Lake for Good and All.

The continued pleasant weather is taken as an indication that the period of intense heat is at an end. Yesterday the maximum was only 80. There is a deal of moisture in the atmosphere and there is some rain forecast for the night. The air is impregnated with 30 per cent humidity, which is only lying in wait for condensation to bring on a fine little shower. The record for the day yesterday was:

Temperature at 6 p. m., 77 degrees; maximum temperature, 80 degrees; minimum temperature, 62 degrees; mean temperature, 71 degrees, which is 4 degrees below normal. Total deficiency of temperature since the first of the month, 72 degrees. Accumulated deficiency of temperature since January 1, 233 degrees.

Total precipitation, trace. Total precipitation since first of month, 1.36 inches, which is .87 of an inch above normal. Accumulated excess since January 1, 25.7 inches. Relative humidity at 6 p. m., 30 per cent.

SHOT FROM AMBUSH.

Non-Union Negro Miner Fatally Wounded in Alabama.

Birmingham, Ala., Aug. 21.—Anthony Davis, a negro non-union miner, whose house at Pratt City was destroyed by dynamite Wednesday night, was fired on from ambush near his home at Pratt City tonight and fatally injured. Quite a number of shots were fired into his body. Davis has been working steadily since the declaration of the strike and immediately after it had been called. He had stated that he had no intention of leaving the mine and recognized the men who committed the deed.

Governor Comer has not yet decided what action to take in the matter of throwing the troops into the district, although great pressure has been brought to bear upon him today to augment the forces.

Apprehension of further trouble continues keen all over the district.

Bathing is superb at Saltair.

POLICE PARAGRAPHS.

Lieutenants John Hempel and "Dick" Shannon turned out yesterday resplendent in new uniforms. The new garments will conform to the recent appointments of Hempel as first lieutenant and Shannon as second lieutenant.

Edward Thompson, charged with stealing a bicycle from the Salt Palace, was found not guilty and discharged yesterday.

William Jones, arrested on complaint of his wife for drunkenness and disorderly conduct, pleaded not guilty in police court yesterday. His case was set for next Tuesday. Mrs. Jones told the police that she thought her husband had become insane from drink. She said he treated her cruelly, drove her from home and demolished the furniture.

L. Peck, a sign painter, arrested Thursday afternoon on the charge of stealing a pair of shoes, pleaded guilty yesterday before Judge Whitaker. Peck pleaded drunkenness in extenuation of his act. He was given forty days on the rock pile.

MINER'S MARVELOUS ESCAPE

John Mitchell Falls a Distance of Forty Feet in Ontario Shaft, Escaping Injury.

Park City, Aug. 21.—One of the most miraculous escapes from a horrible death in Park occurred yesterday, when John Mitchell, a young man employed at the Ontario mine, fell a distance of forty feet without being injured. The young man, in company with S. Hunt, was employed in repairing a cable at Ontario No. 3, and was stretching a cable with a winch when the winch broke, throwing Mitchell in the air, and he dropped head first into the shaft. By some means he caught on a pick that rolled, causing him to fall in such a way as to break his left leg in two places. Knowing how badly he was injured and the distance to his team he sat down to wait for some one to pass. After waiting some time he saw a man, but was so far off he could not attract his attention. The doctor then started to crawl on his back to his team, holding the fractured limb up in the air. PARK COUNCIL SESSION.

Mayor Wilson Brings Up Federal Building Matter Before the Meeting.

Park City, Aug. 21.—The regular semi-monthly meeting of the city council was held last evening in the recorder's office at the city hall. President Deighton called the session to order and read all of the minutes of the previous meeting, which were not on hand. The gentleman came in a few minutes later, however, and for the first time in several weeks past the full set of city officials were present and in their chairs.

The minutes of the previous session were read, and on motion of Peterson and Leahy the same were adopted.

Applications for liquor licenses were made by the following businesses: Spriggs & Crooks, Salsbury & Stevenson, Park City Mercantile & Notion company and George Wanning. All were granted on motion of Wright and Leahy.

The marshal asked for an expression of opinion on new roofs on the city buildings, and some discussion on the subject followed. The full set of city officials were present and in their chairs.
